

# FOAM MACHINE INSTRUCTIONS

INVENTORY: Stand, foam head with red/white sock attached, hoses, 5 gallon bucket, and foam packets (purchase extra just in case and we'll buy them back if you don't use them)

## SET UP INSTRUCTIONS

- 1 - Set-up stand where you want it.
- 2 - Attach fan to stand and slightly tilt downward.
- 3 - Take plastic hose and attach one end of hose to the nozzle on the side of the fan.
- 4 - Attach the other end to the nozzle on the brass piece.
- 5 - Attach black tube to nipple on brass piece.
- 6 - Attach your water source hose to brass piece.
- 7 - Mix one packet into a five gallon water pail.
- 8 - Drop thin black tube into five gallon water pail.
- 9 - Plug in fan to power source
- 10 - Turn water on
- 11 - Have FUN in the foam!!

**DANGER:** Electricity and water don't mix...so always be careful!! If you have questions, please give us a call.
